Descendants
of the
Clingman Family

by
William D. Clingman

THE INDEX SYSTEM

Each letter in a group represents an individual. Each letter also represents a different generation.

For instance, take the index letters AAKKCC

1919039

The first A stands for John Michael Clingan.

The second A means the first child (in this case, a son) of John Michael. Therefore AA is the index of John Clingan.

The third A means the oldest person in the third generation in this direct line. AA is Abner Briggs Clingan.

The next letter is K, the eleventh letter of the alphabet and stands for the eleventh child of Abner Briggs Clingan. So AAKK is the index of Stephen Clingan.

The following C indicates the second child of Stephen Clingan and also the fifth generation. AAKK is the index of David Clingan West.

The C in AAKKC indicates the third child in direct descent and the position indicates the sixth generation. AAKKC is the index of Stephen Cly West.

929.2

CLINGMAN, William D.

C61

A means John Michael Clingan.

AA means his first child, John Clingan.

AAA means John's first child, Abner Briggs Clingan.

AAKK means Abner Briggs' eleventh child, Stephen Clingan.

AAKKK means Stephen's second child, David Clingan West.

AAKKCC means David's third child, Stephen Cly West.

Descendants of the CLINGMAN family, 1734-1930.

Pamphlet

40360

Let us take another example:

The seventh child of John Clingan (AA) was Hiram Clingan (AAG)

The fifth child of Hiram Clingan (AAG) was Charles Clingan (AAGC)

The underlined letter indicates a twin.

The fourth child of Charles Clingan (AAGC) was Charles Clingan (AAGCC)

And his son, Robert Cary Clingan, has the index AAGCCM which indicates that he is of the sixth generation

that he is a first child

that his father was a fourth child

that his grand-father was a fifth child and twin

that his great-grand-father was a seventh child

that his great-great-grand-father was the oldest son of

John Michael Clingan.

THE INDEX LETTERS

Each letter in a group represents an individual. Each letter also represents a different generation.

For instance, take the index letters AAAKBC

The first A stands for John Michael Clingan

The second A means the first child (in this case, a son) of John Michael. Therefore AA is the index of John Clingan.

The third A means the oldest person in the third generation in this direct line. AAA is Abner Briggs Clingan.

The next letter is K, the eleventh letter of the alphabet and stands for the eleventh child of Abner Briggs Clingan. So AAAK is the index of Stephen Clingan.

The following B indicates the second child of Stephen Clingan and also the fifth generation. AAAKB is the index of Bessie Clingan West.

The C in AAAKBC indicates the third child in direct descent and the position indicates the sixth generation. AAAKBC is the index of Stephen Ely West.

A means John Michael Clingan.

AA means his first child, John Clingan

AAA means John's first child, Abner Briggs Clingan.

AAAK means Abner Briggs' eleventh child, Stephen Clingan

AAAKB means Stephen's second child, Bessie Clingan West.

AAAKBC means Bessie's third child, Stephen Ely West.

Let us take another example:

The seventh child of John Clingan (AA) was Hiram Clingan (AAG)

The fifth child of Hiram Clingan (AAG) was Charles Clingan (AAGE)

The underlined letter indicates a twin.

The fourth child of Charles Clingan (AAGE) was Charles Clingan (AAGEB)

And his son, Robert Core Clingan, has the index AAGEBDA which indicates that he is of the sixth generation

that he is a first child

that his father was a fourth child

that his grand-father was a fifth child and twin

that his great-grand-father was a seventh child

that his great-great-grand-father was the oldest son of John Michael Clingan.

Harvey Clingan

A-- John Michael Clingman, born about 1734 in Germany, came to America in 1755

Ann Eliza Miller, born in Germany.

They lived at Sunsbury, Pa., later at Chillicothe (Portsmouth) Ohio. The Children were

AA John, see below

AB Jacob--page 9

Ac George Washington, born Oct. 8, 1779--page 9.

AD Mary--page 11

AE Barbara--Page 11

AA line

AA John Clingman, born about 1772 (?) lived at Portsmouth, O.

Mary Ann Briggs, died Dec. 10, 1853, "aged 87 yrs., 8 mo. 8 da."

The children were

AAA Abner Briggs, born July 13, 1797-----page 1

AAB John Miller, born Nov. 6, 1798-----Page 1

AAC Cyrus, born June 20, 1800-----page 2

AAD Ann Eliza, born July 7, 1802-----page 2

AAE William, born July 7, 1804, died Sept. 26, 1805.

AAF Anna Maria, born March 28, 1807-----page 2

AAG Hiram, born March 4, 1809-----page 2

AAA line

AAA Abner Briggs Clingman, born July 13, 1797, Portsmouth, Ohio.

Sarah Wolliver (Wolever, Wolweber), born 1807.

Married May 16, 1822, moved to Cedarville, Ill. 1839.

The children were

AAAA Cyrus, born Dec. 14, 1823-----page 2

AAAB Mary Ann, born Nov. 30, 1825-----page 2

AAAC Cornelia, born Nov. 6, 1827-----page 3

AAAD George Washington, born Dec. 3, 1829, page 3

AAAE Ann Eliza, born Feb. 1, 1832-----page 3

AAAF John, born April 11, 1834-----page 3

AAAG Jasper, born Aug. 12, 1836, died Sept. 5 1836.

AAAH Franklin, born Aug. 25, 1837-----page 3

AAAI Hester Alice, born Feb. 25, 1841---page 4

AAAJ Eunice, born Feb. 8, 1843 died Aug. 21, 1844

AAAK Stephen, born Aug. 9, 1845-----page 4

AAAL Oscar, born Sept. 11, 1849 died Aug. 30, 1850.

AAB line

AAB line John Miller Clingman, born Nov. 6, 1798, died 1884.

Margaret Lewis, born Dec. 25, 1802, died 1884

Married May 30, 1826. Probably lived near Lowpoint, Ill.

The Children were

AABA Maria, born March 12, 1827, died 1907-----page 4

AABB Mary, born Sept. 1, 1828, died 1901-----page 4

AABC Sarah, born Dec. 2, 1830, died 1883-----page 4

AABD Ann Eliza, born Apr. 17, 1833, died 1913-----page 5

AABE John, died young

AABF George Washington, born April 6, 1835-----page 5

AABG Fernelia, born March 1, 1841, died 1923-----page 5

AABH and AABI, twins, died young.

AAC line

AAC Cyrus Clingan, born June 20, 1800, died 1899. Settled 2 1/2 miles west of Danville, Iowa, moved to Danville 1834. His wife died in 1897. The children whose names we have were

- AACA Henry Richard, born Feb. 26, 1826, died Jan. 23, 1879-5
- AACE Aaron, Cawker City, Iowa
- AACB John, Shenandoah, Iowa
- AACD Mrs. J. I. Parriott, New London, Iowa

Berona Manning

Married May 7, 1913 at Ord, Nebr. living at Superior, Nebr.

AD line

AD Jacob Clingman, born about 1776? Lived in Portsmouth, O. in 1820.
Susannah Mountain

One record says there were no children, but a nephew of George Washington Clingman (AC) lived with him at Cedarville. His name was Joseph Clingman and he was not a son of John Clingman, and there seems no other place to put him. There is a possibility that he belonged to the Peter Klingman branch for Peter's son, John, who probably was a cousin of Geo. W., had an only child named Joseph. This might establish a connection between the two branches.

AC line

AC George Washington Clingman, born Oct. 8, 1779 Sunbury, Northumberland Co., Pa., died Apr. 20, 1856, Cedarville, Ill.
Mary Ann Bright

Married Dec. 2, 1800. There were eleven children of whom eight died in childhood.

ACA John Bright, born May 12, 1803, died 2-6-1826---page 9.

1. The first part of the paper is devoted to a general introduction of the subject and to a statement of the main results.

2. In the second part we shall give a detailed proof of the first theorem. The proof is based on the use of the method of the moving plane.

3. In the third part we shall prove the second theorem. The proof is based on the use of the method of the moving plane.

4. In the fourth part we shall prove the third theorem. The proof is based on the use of the method of the moving plane.

5. In the fifth part we shall prove the fourth theorem. The proof is based on the use of the method of the moving plane.

6. In the sixth part we shall prove the fifth theorem. The proof is based on the use of the method of the moving plane.

7. In the seventh part we shall prove the sixth theorem. The proof is based on the use of the method of the moving plane.

8. In the eighth part we shall prove the seventh theorem. The proof is based on the use of the method of the moving plane.

9. In the ninth part we shall prove the eighth theorem. The proof is based on the use of the method of the moving plane.

10. In the tenth part we shall prove the ninth theorem. The proof is based on the use of the method of the moving plane.

11. In the eleventh part we shall prove the tenth theorem. The proof is based on the use of the method of the moving plane.

12. In the twelfth part we shall prove the eleventh theorem. The proof is based on the use of the method of the moving plane.

13. In the thirteenth part we shall prove the twelfth theorem. The proof is based on the use of the method of the moving plane.

14. In the fourteenth part we shall prove the thirteenth theorem. The proof is based on the use of the method of the moving plane.

15. In the fifteenth part we shall prove the fourteenth theorem. The proof is based on the use of the method of the moving plane.

The first part of the report discusses the background and objectives of the study. It outlines the scope of the research and the methods used to collect and analyze data. The objectives are to identify the key factors influencing the outcome and to provide a comprehensive overview of the current state of knowledge in this field.

The second part of the report presents the results of the study. It includes a detailed description of the data collected and the statistical analysis performed. The results are presented in a clear and concise manner, highlighting the key findings and their implications for the field.

The third part of the report discusses the conclusions drawn from the study. It summarizes the main findings and provides a critical evaluation of the results. The conclusions are based on the evidence presented in the report and are intended to provide a clear and concise summary of the study's findings.

The fourth part of the report discusses the implications of the study. It outlines the potential applications of the findings and the limitations of the study. The implications are discussed in the context of the current state of knowledge in the field and are intended to provide a clear and concise summary of the study's findings.

The fifth part of the report discusses the future research. It outlines the areas for further investigation and the methods that should be used to collect and analyze data. The future research is intended to build on the findings of the current study and to provide a more comprehensive understanding of the topic.

The sixth part of the report discusses the conclusions drawn from the study. It summarizes the main findings and provides a critical evaluation of the results. The conclusions are based on the evidence presented in the report and are intended to provide a clear and concise summary of the study's findings.

The seventh part of the report discusses the implications of the study. It outlines the potential applications of the findings and the limitations of the study. The implications are discussed in the context of the current state of knowledge in the field and are intended to provide a clear and concise summary of the study's findings.

The eighth part of the report discusses the future research. It outlines the areas for further investigation and the methods that should be used to collect and analyze data. The future research is intended to build on the findings of the current study and to provide a more comprehensive understanding of the topic.

The ninth part of the report discusses the conclusions drawn from the study. It summarizes the main findings and provides a critical evaluation of the results. The conclusions are based on the evidence presented in the report and are intended to provide a clear and concise summary of the study's findings.

The tenth part of the report discusses the implications of the study. It outlines the potential applications of the findings and the limitations of the study. The implications are discussed in the context of the current state of knowledge in the field and are intended to provide a clear and concise summary of the study's findings.

The first part of the report discusses the background and objectives of the study. It outlines the scope of the research and the methods used to collect and analyze data. 1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for the company's financial health and for providing reliable information to stakeholders.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps from initial entry to final review, ensuring that all data is entered correctly and verified.

3. The third part of the document discusses the role of the accounting department in ensuring the accuracy and integrity of the financial records.

4. The fourth part of the document discusses the importance of regular audits and reviews to ensure that the financial records are accurate and up-to-date.

5. The fifth part of the document discusses the importance of maintaining proper documentation for all financial transactions, including receipts, invoices, and contracts.

6. The sixth part of the document discusses the importance of maintaining accurate records of all assets and liabilities, ensuring that the company's balance sheet is always balanced.

7. The seventh part of the document discusses the importance of maintaining accurate records of all income and expenses, ensuring that the company's profit and loss statement is always accurate.

8. The eighth part of the document discusses the importance of maintaining accurate records of all taxes and other legal obligations, ensuring that the company is always in compliance with the law.

9. The ninth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

10. The tenth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

11. The eleventh part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

12. The twelfth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

13. The thirteenth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

14. The fourteenth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

15. The fifteenth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

16. The sixteenth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

17. The seventeenth part of the document discusses the importance of maintaining accurate records of all financial data, ensuring that the company's financial statements are always reliable.

REPORT

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research. It also mentions the scope of the study and the methods used.

2. The second part of the report is a detailed description of the experimental work. It includes a description of the apparatus used, the procedure followed, and the results obtained. It also discusses the errors and limitations of the experiment.

3. The third part of the report is a discussion of the results. It compares the results with the theoretical predictions and with the results of other experiments. It also discusses the implications of the results and the conclusions drawn from the study.

4. The fourth part of the report is a conclusion. It summarizes the main findings of the study and states the conclusions drawn from the results. It also mentions the limitations of the study and suggests areas for further research.

5. The fifth part of the report is a list of references. It includes a list of the books, articles, and other sources used in the study.

6. The sixth part of the report is a list of figures. It includes a list of the figures and tables used in the study.

7. The seventh part of the report is a list of symbols. It includes a list of the symbols and abbreviations used in the study.

8. The eighth part of the report is a list of appendices. It includes a list of the appendices and tables used in the study.

9. The ninth part of the report is a list of acknowledgments. It includes a list of the people and organizations that helped in the study.

10. The tenth part of the report is a list of references. It includes a list of the books, articles, and other sources used in the study.

Box 1815
Richmond, California,

To Descendants of the
Clingman - Klingman Families,

Greeting:-

During the past few years I have been trying to complete a list of our branch of the above family name, and have located quite a number of descendants belonging to our branch, which is traced back to my great grand-father Peter Klingman, (1752-1848) who lived most his life in Union County Pennsylvania. He married Margaret Englehart, their children being:- Jacob, Magdalena, Peter, George, John, Danich, (my grand-father) Michael, Samuel and Elizabeth. Samuel and family moved to Lake County Illinois about 1844 and in 1846 my father Samuel moved to the same County and as his uncle had changed to the English form of spelling, viz: Clingman my father did likewise. I have listed most of the families of grand-fathers brothers and sisters, but am not certain about his brother Peters' folks and have none of his brother Georges, who is said to have moved to Ohio and had quite a family. I have also quite a list of descendants of John Michael Clingman, (1734-1816) who was a Captain in the Revolutionary War. and a Alexander Klingeman, whose grand-son Thomas Lanier Clingman was a U.S Senator from North Carolina in 1860. Another branch starts with Cornelius Klingman whose descendants are in Indiana and west. Among other records is George Klingaman (died 1820) wifes name Catherine (1747-1834), their son George (1778-1856) married Catherine Hostetler, some of their descendants are in California. There are several other families whose names have not been traced into any of the above branches, and we have not yet learned the relationship of our branch-if any-to the others.

I recently made a visit to Union County Pa. and met quite a few relatives of whom I had no records. While there, and at other places we stopped on our return trip, we found the family name in various directories, and we are writing them, to learn if possible, their relationship to this name, and to obtain an outline of their records.

Thanking you for your attention, and trusting to hear from some member of the family to whom this is sent, I am,

Yours sincerely,

John H. Clingman

age 73

Dear H.L.:

I have answered from my scanty store of knowledge. I think he would be glad to get a message from you.

Cordially yours,

John H. Clingman

1892
